

# STIMUL

Trade-production  
company

# History

## History

**The trade-production company «Stimul»** is a russian food processing company that is one of the leaders in its industry. For the production of confectionery glazes, jam and fillings, our specialists have developed and integrated comprehensive innovative solutions.

**Everyday we work on the introduction of advanced technologies into production, improving the efficiency and quality of our products.**

In 2008, as part of an investment project, our company was formed by a group of professionals with over 25 years of industry experience.

In the shortest time the company has acquired the status of a resident of the Kaliningrad Special Economic zone, having received an appropriate access and opportunities for a special legal regime for the implementation of production activities and trade within the free customs zone.

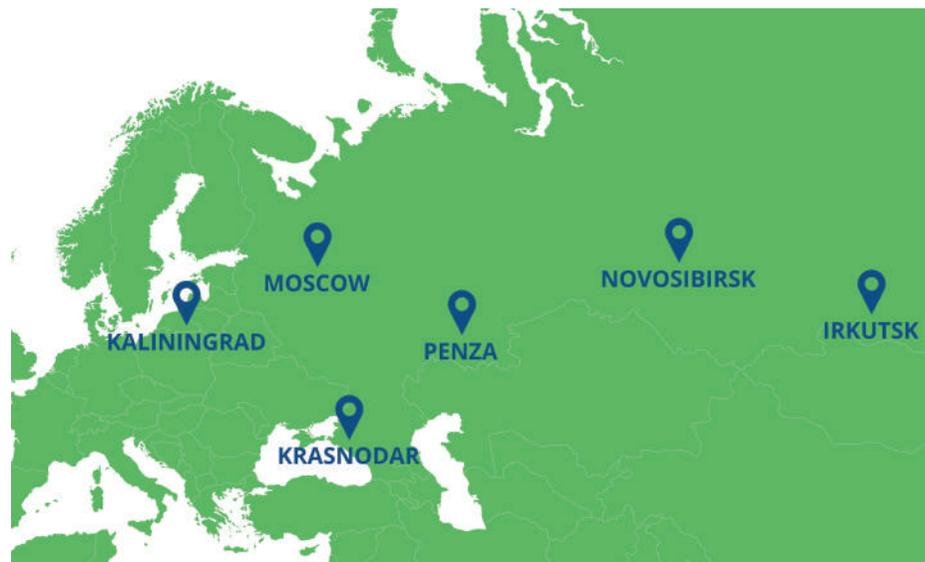

# Geography

## Geography

The geography of our presence is constantly growing.

Right now branches and warehouse complexes of our company operate in many cities:

- **Kaliningrad**
- **Moscow**
- **Penza**

# Technologies

## Technologies

On the basis of our company, our own R&D was formed (Research and Development) center that provides a wide range of opportunities in the field of research and development of innovative technological solutions.

Highly qualified specialists, modern equipment, high quality control standards and well-thought-out logistics are the main advantages of Trade and production company "Stimul".

# Production

## Production

**The modern European automated equipment of leading manufacturers is a guarantee of consistently high quality products.**

As part of the modernization project, in 2019, the production fleet of equipment was updated, which allowed to increase the production capacity of the enterprise by 20% and significantly reduce the number of manual operations.
